

Product Name □ Electric pipe Cutting and bevelling machine

Description □ High speed rotation, driven by low-energy consumption electric motor, easy operation, competitive Voltage □ 220V

Frequency □ 50Hz

Grant Current □ 6A

Power □ 0.5-2.5KW

Features □ lighter weight, minimal radial space, easy to operate. APPLICATION RANGE: They are widely used in the fields of petroleum, chemical, natural gas, power supply, construction, boiler and nuclear power, such as the project of West Gas Transporting to East China.

ON-SITE PROCESS

The field processing, groove structured, no burr, easy welding.

CONVENIENT INSTALLATION

BEACIMC TOOL POST, the split is installed in the pipeline in any position, fast and convenient

INSIDE TOOL POST tool, according to the pipe diameter, pipe deformation ellipse machining.

Metric Standard Groove inner wall of pipeline, the short section wall boring.

Profile System Standard selection (pipe diameter □ 1050mm, Hydraulic or NC model and 1500mm

Profile capacity and model selection (pipe diameter □ 1066mm, Hydraulic or NC model and 1500mm
